

"G-MULTI" SERIES

MULTI-LINE WIRE BENDERS

**SMASHING NOVELTY!
MULTIPLY YOUR PRODUCTIVITY
IN ONE MOVE**

- A complete range of two and three-axis straightening, bending and cutting machines designed to meet a vast range of applications within the wire industry, working from ONE to SIX lines simultaneously.
- Up to 6 lines, reaching feeding speed up to 600m/min
- Industrial or decorative shapes of any complexity can be created instantly and produced in thousands on the spot.
- Available in four diameter ranges: 2-6mm, 3-8mm, 4-10 mm, 6-12mm
- Unlimited production flexibility, improved response to customer needs and highly increased productivity
- Adjustable counter-torsion (anti-twist) system guarantees always flat shapes regardless of wire quality, bending direction etc (patented)
- Diameter changes can be completed in less than two minutes, thanks to a carefully designed pre-setting system.
