

G-STAR SB SERIES AUTOMATIC RE-BAR BENDERS

- ✓ A complete range of CNC Programmable 2-D Re-bar benders for heavy duty continuous operation within the construction industry working from straight bars.
- ✓ With twin-rod simultaneous processing capabilities up to 16 mm (#5) and single up to 20 mm (#6).
- ✓ The sophisticated bending system employs a retractable bending pin on the rotating plate enabling re-bar feeding during bender back motion increasing the production capacity.
- ✓ Cutting without reversing.
- ✓ Automatic extraction of remaining bars.

- ✓ All lower rollers of the feeding sub-assemblies are powered, thus creating a positive, precise and evenly distributed feed force.
- ✓ Ergonomic operator interface with user friendly software.
- ✓ Remote trouble-shooting via Internet.
- ✓ G-STAR SB Re-bar Benders are available in two diameter ranges capable of processing up to 16 (#5) and 20 mm (#6) straight bars.

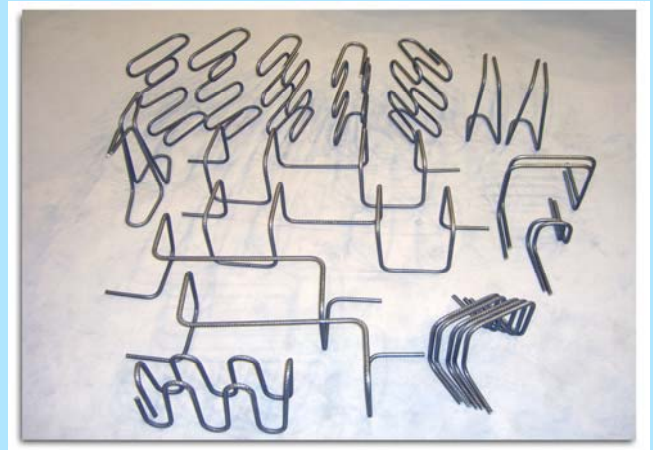

G-STAR SB Re-bar Benders are available with:

- ✓ AUTOMATIC TORSION ELIMINATOR (patent)
- ✓ Product identification stamping
- ✓ Straight rod collection unit
- ✓ Laterally shifting re-bar feeding table.

"G-STAR SB TRIS & SP" 3-D REBAR BENDERS:

ADD AN EXTRA DIMENSION
TO YOUR PRODUCTION

- ✓ A complete range of CNC programmable 2-D and 3-D rebar benders to meet a vast range of concrete reinforcing applications.
- ✓ With all the unique features of the G-STAR SB SERIES
- ✓ Elimination of secondary bending operations.
- ✓ High output of 3-D **Support Elements** for bar and mesh.
- ✓ Special Bender for high output production of **Continuity Systems** stirrups.
- ✓ The sophisticated bending system employs one classical rotating bending plate with incorporated cutter and one of the two 3-D bending head options.
- ✓ **SP VERSION** with double folding arms and external 3D support unit for increased productivity. (patent)
- ✓ **TRIS VERSION** with retractable twin roller design for unlimited shape possibilities. (patent)
- ✓ AUTOMATIC TORSION ELIMINATOR (ATE) always produces flat shapes regardless of rebar quality, axial twist and bending direction (patent)
- ✓ G-STAR SB TRIS & SP 3-D Re-bar Benders are available in two diameter ranges capable of processing up to 16 (#5) and 20 mm (#6) straight bars.
